Fun Quests The main goal of the Hotel Hideaway APK is to build your own hotel empire while completing fun quests given to you by other players or random NPCs found around the map that will ask them to complete some small tasks for them in return for some coins and XP points. Quests make the game more interesting, especially when they start introducing new buildings, making it easier for players to progress through the game with less effort! Different buildings and decorations All successful hotel games stand out with their diversity. There is something for everyone, starting from a single-story house as a starting tutorial quest. It will make players understand the main mechanics of your game and how they can further enjoy their experience while playing Hotel Hideaway! Variety of buildings In order for your own Hotel Hideaway APK to be popular, there needs to be enough variety in the available buildings. While most types of these buildings can share similar functions, they should still look very different from one another. This way, players won't get bored with the same-looking buttons and elements popping up all over the place! More than one currency One currency type per game is not enough, especially when we're talking about such simple games as hotel hideaway mod apk unlimited coins and diamonds! Users will soon get bored with coins, which is why you need to introduce more currency types. It can be diamonds or some other collectible resource that will make the game more challenging but also more interesting at the same time! Make New Friends Making yourself interesting to others and impressing others with your personality is a popular way to become a guest. Add your friends and create your own group to compete with other groups to earn special rewards. Moreover, you can discover the hidden secrets of the hotel and have friends' hangout parties. Look unique in your friend's circle through your charming style and best clothes.
